

State College Radio Control Club Tuesday, October 1st 2013 Meeting Minutes

Ron Lueth called the meeting to order at 7:03. Jim Stidworthy attended as a guest intending to join SCRC.

- The minutes from the September 3rd meeting were approved.
- Treasurer's Report. Jon Guizar reported no account activity since last meeting. We received a letter from the Nittany Amateur Radio Club thanking SCRC for hosting their July meeting. They were impressed with our flying demonstrations and included a \$50 donation with their letter, a gesture that is much appreciated by SCRC. We received a \$30 check for dues from a new member, Kevin Hazenstab. Membership voted to approve the Treasurer's report.

- Unfinished business –

Meeting with Jack Garbrick. The planned meeting with Jack regarding the proposed new signage for "Club Members Only" and guidelines for operating of RC surface vehicles has not happened yet.

New Member Orientation & Documentation. Todd Cook is still working on this. Homer Rhodes is researching various safety documents and RC flight manuals. He suggested that we may want to include some basic flight maneuvers in our documentation.

Indoor Flying at the Christ Community Church Gym. Jon Guizar will send out a schedule this week. Last month he reported that it will likely be for two Saturdays per month in the 7 pm to 9 pm time slot. We expect to begin our indoor flying season the first week of November. Ron Lueth reported that he will be making a second attempt to schedule some time at Bellefonte High School. The gym is a large facility with a high ceiling. Now that SCRC is non-profit, it should only cost us \$20 to \$40 per hour if we can secure some dates.

2014 Winter Banquet. Christ Community Church has the dates that we agreed on at last month's meeting, February 8th with February 15th as back-up. Ron will send out a message requesting volunteers to help plan this event so if you can possibly help, please respond.

- New business –

IMAC and SCRC. Ron advised that IMAC asked us if we wanted to select a date for the proposed primer at the SCRC field. The last Saturday in April and the first Saturday in May were suggested. Membership felt that the May date would be better. The primer is intended to show our members and other area RC flyers how to fly the IMAC maneuvers.

Indoor Precision Flying Seminars. Ron will try to schedule some seminars at the CCC Gym focusing on the ETOC sequence of maneuvers.

- .Open Floor Discussion –

Homer Rhodes advised that this Thursday at 1:00 is the second of three Delta Dart classes at Corl Street School. If you can volunteer to help him with these sessions, please contact Homer or one of the officers.

Jon Guizar offered to do a presentation at one of our upcoming meeting on aresti aerobatic maneuvers.

Woody Bream requested presentation that explains the different types of foam and their uses. Ron offered to handle this.

- Coming Events –

SpookFest 2013. Eagle Squadron RC Club. Galion Ohio. October 18th, 19th and 20th.

Buzzard Field Fun Fly. They may host another event to make up for the bad weather at the September Fly-in.

Continued - State College Radio Control Club Tuesday, October 1st 2013 Meeting Minutes

- Show and Tell –

Todd Cook brought in a Sig Kadet Mark II plane with an OS .40 engine to give to any other club member who may be interested.

Tom Majewski had a partial roll of Doculam, a clear iron-on, heat shrink film that is gaining in popularity for covering model planes. Tom had examples of the trials that he did and advised that Doculam available in various thicknesses down to 1.2 mil for very light airframes. It can also be painted and a 500 foot roll is only about \$20 from Laminator's Warehouse online.

- Program –

Al Jones gave a presentation on adhesives. He covered their uses in model building and explained the characteristics of Elmer's, Titebond, Epoxy, Canopy Cement, Gorilla Glue, Ambroid and E6000. Many thanks to Al for this informative program.

- Meeting Adjournment – Al Jones made the motion to adjourn at 8:15 pm. Motion carried.

Respectfully Submitted,

Daryl Allen, Secretary
